## **Fiscal Analysis**

### **ASSUMPTIONS:**

- 1. Interest from the Park Coal Tax Trust funds the Park Division day-to-day operations. By removing \$3,000,000 from the trust, interest earnings will be reduced by \$231,000 per year (based on current interest earnings of 7.73%).
- 2. Capital development, operations and management costs estimates for this facility will be similar to the Idaho Fish and Game living stream facility in Boise, Idaho.
- 3. Full staffing will not be needed the first year. A 0.80 FTE, grade 14, Park Operations Supervisor would be hired in FY 2000 to coordinate the construction facilities and maintain

- the site. An additional 3.20 FTE would be added in FY 2001 for continued operations and maintenance. Tour guides and interpreters are temporary employees.
- 4. Park fees will be charged per Section 23-1-105, MCA, following substantial completion of development. Fees will not be collected during this biennium.

#### LONG-RANGE IMPACTS:

Once the park is open, it will cost approximately \$210,000 a year (4.00 FTE) to operate and it will collect about \$10,000 in revenue from entrance fees for a loss of \$200,000 per year. In addition, lost parks trust fund interest will be about \$230,000 per year.
